

Plan Goals (revised 01/27/2022)

1. Preserve existing agricultural land and support farmers and agricultural operations.

2. Protect the natural environment, specifically water resources, water supply watersheds, and forested areas.

3. Expand the park system by providing a variety of accessible and equitable recreational facilities, programs, and opportunities.

4. Coordinate with municipalities and utility providers to encourage growth to within municipal jurisdictions and reinforce those locations as community centers.

5. Create a county-wide utility strategy that supports a coordinated growth pattern in the unincorporated county.

6. Implement the Economic Development Strategic Action Plan in a way that supports the desired growth pattern and helps grow the local economy.
